ABOUT KUSASA REFINING

Kusasa Refining is a **South African precious metals refinery** supported by international expertise and strategic partnerships across the global precious metals industry. This combination of **local presence** and **international capability** enables Kusasa Refining to operate competitively in both regional and international markets.

We specialise in the **responsible buying, refining and selling of mainly Gold, Platinum Group Metals (PGMs) and Silver** for producers and suppliers. Our secure precious metals platform is supported by **industrial-scale refining capability, accredited laboratory analysis and technically rigorous processes.**

We work with **responsibly sourced material**, supported by robust due diligence and traceability controls. Our operations are underpinned by **disciplined governance, ethical sourcing, robust safety standards** and a strong commitment to **environmental responsibility**, ensuring transparency, traceability and confidence across the refining value chain.

Reinforcing Kusasa Refining's position as a **trusted precious metals refinery** in South Africa.

WHAT WE OFFER

We buy, refine and sell precious metals across primary and secondary supply streams which include mainly:

- Gold
 - Platinum Group Metals (PGMs)
 - Silver
-

WHY WORK WITH KUSASA REFINING

- Competitive and transparent pricing
 - Efficient turnaround times with accredited laboratory results
 - Structured, reliable and exceptional payment terms
 - Strong governance and deep technical expertise
 - Comprehensive compliance culture, including ISO and RJC certification and accreditation and AML and FICA adherence
 - Fully documented and transparent chain of custody and traceability controls
-

LABORATORY & TECHNICAL CAPABILITY

Kusasa Refining operates a technically rigorous, accredited in-house laboratory delivering **accurate, transparent and verifiable analytical results**.

Our laboratory is accredited by the **South African National Accreditation System (SANAS)** in accordance with **ISO/IEC 17025:2017**, confirming technical competence, validated methodologies and robust quality controls.

THIS ENSURES:

- Data integrity, traceability and controlled documentation
- Secure sample handling and chain-of-custody controls
- Independent verification and transparent reporting

Our laboratory capability underpins our commitment to **precision, transparency and trust**.

RESPONSIBILITY

COMPLIANCE

Kusasa Refining operates within a robust compliance and governance framework aligned with regulatory, ethical and ESG standards.

Our operations are underpinned by **rigorous due diligence, KYC and KYP** processes, disciplined quality control and oversight across production and laboratory activities – reinforcing Kusasa Refining as a **responsible precious metals refinery**.

SUSTAINABILITY & ESG

We are committed to responsible, ethical and sustainable precious metal sourcing and refining. Sustainability and ESG principles are embedded across our governance, environmental management, health and safety, and responsible supply-chain practices.

RESPONSIBLE SOURCING AND DUE DILIGENCE

While not accredited by the LBMA or LPPM, our **internal due diligence, KYC, KYP, AML and traceability policies and procedures** are informed by their responsible sourcing requirements.

We apply **rigorous due diligence processes** to ensure that all Gold, Platinum Group Metals (PGMs) and Silver are **responsibly sourced, fully traceable and compliant** with applicable regulatory and ethical standards.

ENVIRONMENTAL MANAGEMENT, HEALTH & SAFETY & ETHICAL GOVERNANCE

Environmental responsibility, health and safety, and ethical governance are embedded across our operations. We maintain structured environmental management systems, a certified occupational health and safety framework, and strong governance supported by clear accountability, independent audits and transparent business practices.

ACCREDITATION & CERTIFICATION

Kusasa Refining is accredited and certified by independent organisations, underscoring our adherence to rigorous standards of integrity, governance and operational excellence across precious metals buying, refining and selling.

- SANAS ISO/IEC 17025: (2017) [CLICK](#)
- ISO 14001: (2015); [CLICK](#) ISO 9001: (2015) [CLICK](#) and ISO 45001: (2018) [CLICK](#)
- Responsible Jewellery Council (RJC) – Code of Practices & Chain of Custody [CLICK](#)

INDUSTRY FRAMEWORKS

Our responsible sourcing and governance systems are informed by internationally recognized frameworks, including:

- OECD Due Diligence Guidance
 - LBMA Responsible Sourcing Guidance
 - LPPM Responsible Sourcing Guidance
- Kusasa Refining is not accredited by the LBMA or LPPM.
